

ARTUR BOGO DOS SANTOS

Full-stack Software Engineer

Joinville, SC, Brazil

arturbogo25@gmail.com · LinkedIn · GitHub · arturbogo.dev

PROFILE

Full-stack software engineer focused on enterprise products and useful tools. I work on SE Suite with React, PHP, JavaScript and PostgreSQL, including AI integrations. Earlier quality and support work at Bosch strengthened my debugging, documentation and product understanding.

SKILLS

Core: React, PHP, JavaScript, PostgreSQL, SQL, APIs REST, Git.

Supporting: Java/Spring Boot, Python, Docker, Selenium, OpenCV, Google Gemini API.

Practice: Debugging, code review, data validation, documentation and AI integration.

EXPERIENCE

SoftExpert | Software Engineer | Oct 2026 - present

Promotion effective October 5, 2026. Previously: Product Development Intern, Mar 2026 - Oct 2026.

- Develop React interfaces and PHP logic, connecting UI state, validation and PostgreSQL persistence in SE Suite.
- Work on AI integrations and participate in code reviews, aligning interface behavior, business rules and data.

Bosch Soluções Integradas Brasil | Technical Support Assistant | Sep 2023 - Nov 2025

- Investigated fleet-platform defects, documented reproductions and supplied actionable technical context to engineering.
- Managed support tickets and communicated status, next steps and resolution to users.

Bosch Soluções Integradas Brasil | Quality Assistant | Dec 2022 - Sep 2023

Robert Bosch | Administrative Apprentice | Jul 2022 - Dec 2022

- Analyzed interaction logs and refined keywords and responses for the internal Beto chatbot.

KNN Idiomas | English Teacher | Jan 2022 - Apr 2022

Taught across proficiency levels, adapting explanations and communication to the audience.

SELECTED PROJECTS

- PriceScraper — Product collection, SQLite and Telegram queries. Over 3,000 products in the original run; stores current/minimum prices rather than a full time series.
- Solettra Solver — Portuguese word filtering and Selenium automation. Historical run: 59/59 words in 55 s; the game determines acceptance.
- Clipurr — macOS 26 utility in SwiftUI/AppKit, with local history and Apple Vision OCR. In development; full Xcode build verification pending.

EDUCATION & LANGUAGES

B.S. in Software Engineering | UNIVILLE | Dec 2026

High School and Technical Diploma in Informatics | IFC, Araquari | 2021

Native Portuguese · Fluent English
